INDEX TO VOL. XLVI

Electrical Review

NEW YORK.

JANUARY 7 TO JUNE 24, 1905

7 R. 10 Lo

INDEX TO VOLUME XLVI

ELECTRICAL REVIEW

JANUARY 7 TO JUNE 24, 1905

Articles marked * are illustrated; (E) indicates "Editorial;" (P) indicates notes under "Recent Electrical Patents;" (R) indicates "Reviews of Current Engineering Literature."

A

Abrasive materials, method of fastening to metal bodies (P)..... 208
Absorption dynamometer..... 326
Acetylene gas lighting in France (E). 139
Accuracy checks of switchboard instruments, by Clayton H. Sharp..... 242
Acyclic dynamo, the (E)..... 182
Acyclic (homopolar) dynamos, by J. E. Noeggeratt*..... 188
Acetylene, precautions in the use of (E) 446
Adjustable vapor discharge (P)*..... 464
African telegraph line, the great..... 653
Agriculture, electricity in (E)..... 397
Agriculture, electricity in, by C. L. Durand* 422
Air-insulated cables, the manufacture of, by Emile Guarini..... 104
Alliance of Massachusetts Institute of Technology with Harvard, the proposed 840
Alternating-current machine (P)*..... 945
Alternating-current motor (P)*..... 428
Alternator, a high-frequency..... 107
Alternator for 120,000 cycles per second, an..... 562
Aluminum electrolytic condenser, the (E) 800
Aluminum electrolytic condenser, the, by C. I. Zimmerman*..... 813
American Electrochemical Society, the meeting of the (E)..... 717
American Institute of Electrical Engineers 25
34, 118, 162, 197, 297, 376, 472, 501
544, 665, 737, 766, 804, 852, 882
American railway appliance exhibition, 562, 718, 762
American Telephone and Telegraph Company, annual report of the.... 535
American Trade Press Association, meeting of the..... 251, 318
American machine exports to Germany, review of..... 25
Ampere-meter for high-potential circuits, an (R)..... 546
Amsterdam-Haarlem tramway system, the 196
Amusement telephones..... 374
And still the wonder grows (E)..... 561
Animas Canal, Reservoir, Water, Power and Investment Company..... 534
Annual dinner of the American Institute of Electrical Engineers, the, 25, 161, 184, 226
Annual meeting of the American Institute of Electrical Engineers..... 802
Annual meeting of the Technical Publicity Association..... 783
Annual report of the Cuyahoga Telephone Company, the..... 367
Annual report of the Mackay Companies, the..... 358
Annunciator (P)*..... 886
Anthracite coal mines, electricity in the, by Robert Thurston Kent*.563, 613
Apparatus for mechanically checking recording wattmeters, new..... 683
Apparatus for nickel-plating (P)*..... 382
Apparatus for producing high vacua (P)* 120
Apparatus for testing the insulation of coils (P)*..... 336
Apparatus for transforming electrical energy (P)* 337
Application of electricity to steam roads, by S. Cass..... 283
Application of electric power at mines in Germany, notes on the, by E. O. F. Brown..... 901
Application of the cymometer to the measurements of coefficiencies of coupling of oscillation transformers 611
Application of electricity to heavy freight and trunk line railways.. 691
Application of the differential galvanometer to exact measurement of resistance, by W. Jaeger, translated by M. G. Lloyd*..... 981
Application of wireless telegraphy for domestic purposes, by W. J. Hammer 340
Arc in a magnetic field, the (R)..... 381
Arc, the electric (E)..... 44
Arkansas Valley Electric Company, the, by J. E. Johnston*..... 881
Armature coils and ozone (R)..... 426
Atmospheric electricity, influence of the sun on meteorology and..... 15
Australian tramway systems, by John Plummer 379
Automatic appliances, the use of (E).. 1001
Automatic block system, an (R)..... 628
Automatic fire-alarm..... 103
Automatic telephone exchange at Battle Creek, Mich.*..... 250
Automatic telephone exchange at Columbus, Ohio, new*..... 975
Automobile Club of America, new clubhouse and garage for the..... 882
Automobile displace the tramway? will the (E)..... 399
Automobile freight line between Lima and Callao 379
Automobile parade, the..... 664
Automobiles and electric cars for Lima, Peru 932
Automobiles, electric (R)..... 252
Automobile show, Chicago, fourth annual 103
Automobile shows in New York city 118
Automobile shows, the (E)..... 99
Auxiliary dynamo for controlling an accumulator installation, the use of an (R)..... 628

B

Battery (P)*..... 782
Belfast, Ireland, railways, electrification of the..... 25
Berlin private telegraph exchange, the (R) 426
Best economy of the piston steam engine at the advent of the steam turbine, the, by James E. Denton.... 574
Bimetallic rheostats (R)..... 699
Blake-Morscher electrical ore-separator, the (R)..... 1023
Bone fractures treated by electricity.. 21
Book Reviews.
American Telephone Practice. Miller 774
A Treatise of the Theory of Alternating Currents. Russell..... 424
Cyclopædia of Applied Electricity.. 460
Diseases of Electrical Machinery. Schulz 424
Dry Batteries..... 460
Electrical Circuits and Diagrams, illustrated and explained. Schneider 460
Elements of Mechanics. Merriman 661
Electricity in Everyday Life. Houston 278
Electric Lighting for the Inexperienced. Walter..... 424
Electric Furnaces and Their Industrial Applications. Wright..... 116
Experimental Researches on the Flow of Steam Through Nozzles and Orifices. Rateau..... 622
Ferric and Heliographic Processes. Brown 460
Gas-Engines and Producer-Gas Plants 839
How to Install Electric Bells, Annunciators and Fire-alarms. Schneider 460
La Bobine d'Induction. Armagnat. 424
Laboratory and Factory Tests in Electrical Engineering. Sever and Townsend..... 424
Letters of Petrus Perigrinus on the Magnet, The. Brother Arnold and Brother Potamin..... 14
Maxwell's Theory and Wireless Telegraphy. Poincaré, Vreeland. 116
Mechanical Engineer's Reference Book. Supplee..... 661
Modern Electrical Construction. Horstman and Tousley..... 973
Practical Electric Light Fitting. Allsop 774
Practical Laws and Data on the Condensation of Steam in Covered and Bare Pipes. Paulding. 15
Producer Gas for Power Purposes. Tookey 424
Producer Gas. Sexton..... 425
Self-Propelled Vehicles. Homans. 278
Short Course in Alternating Currents. Townsend..... 460
Steam Turbines. Stodola..... 578
Suction Gas. Haenssgen..... 460
Telephone Principles and Practice. Wilder 278
Telephone Service. Webb..... 278
Telephone Troubles and How to Find Them..... 460

BOOK REVIEWS—*Continued.*
The Art of Generating Gear Teeth.. 460
The Beginner's Guide to the Lathe. 460
The Berlin-Zossen Electric Railway Tests of 1903. Welz..... 774
The Insulation of Electric Machines. Turner and Hobart..... 622
The Mechanical Engineer's Pocketbook. Kent..... 424
The Pocketbook of Refrigeration and Ice-Making. Wallis-Tayler.. 774
The Steam Engine. Heck..... 1004
The Study of Electricity for Beginners. Schneider..... 460
The Telegraphist's Guide to the Departmental and City and Guilds Examinations in Telegraphy. Bell and Wilson..... 774
Bolometer for the absolute measurement of radiation, a..... 984
Bouvier speed governor, the (P)..... 338
Bradford, England, breakdown, the.... 71
Branding apparatus, an electrical (P)*. 208
British railways, electric motor cars for 585
Breakdown of the Bradford, England, municipal light and power station.. 6
Breaks in overland telegraphic communication due to storms (R).... 299
British Royal Commission on coal supplies 335
Buenos Ayres, electric cabs in..... 845
Burning out of electric street-car controllers (R)..... 785

C

Cable-laying (R)..... 123
Cable, the choice of an insulated, by Wallace S. Clark*..... 933
Cables, the manufacture of air-insulated, by Emile Guarini*..... 104
Cable work, early..... 65
Cadmium amalgam lamps, the (R).... 380
Calcium metal (R)..... 78
Canadian Niagara district, power plant in the (R)..... 253
Canadian Niagara Power Company's turbines, test of the..... 4
Canal telephone exchange at Cincinnati, Ohio, the new, by J. E. Peavey* 185
Can a steam turbine be started in an emergency quicker than a reciprocating engine of the same power? by A. S. Mann..... 1005
Candle-power of searchlights and flashlights, the (E)..... 99
Carborundum for meter bearings, by M. Van Every..... 840
Car equipment of the single-phase railway system..... 290
Caronia, the new Cunard liner..... 423
Caronia, the Cunard twin-screw steamship 465
Caustic alkalies in the nickel-iron accumulator, the use of (R)..... 823
Celebes-Guam cable, the..... 1023
Central station development (E)..... 223
Central station protection..... 897
Century's "Great Inventions" series, the 693
Charge carried by the X-rays from radium 490
Charging station for electrically operated vehicles (P)*..... 857
Chattanooga Electric Company, the power plant of the*..... 319
Chicago automobile show, fourth annual 103
Church Stretton, England, gas-driven electricity works (R)..... 784
Circuit-making and breaking relay (P)* 209
City noises (E)..... 489
Coal, the world's production of..... 466
Coal-cutting machines, the advantages of electric (E)..... 45
Colorado Springs Electric Company, by E. P. Dillon*..... 927
Columbus, Ohio, new automatic telephone exchange at*..... 975
Combination of dust destructors and electricity works economically considered, by W. P. Adams*....16,116, 156
Combined single-phase and continuous-current traction..... 885
Commercial aspect of engineering, the, by C. A. S. Howlett..... 448
Commercial electrical engineering..... 621
Communicative elephant, a*..... 944
Commutator, the difficulty with the, by Stanley S. Seyfert*..... 492
Comparison of New York and London transit systems..... 562
Compensated single-phase shunt motor, notes on the (R)..... 1022
Compounding of alternators (E)..... 140
Compound dynamo brush..... 781
Condensed specifications and forms of proposals for the construction of Chicago municipal street railways 970
Condensers for high vacuum..... 362
Conductivity of very dilute hydrochloric and nitric acid solutions, electrical (R)..... 78
Conical wind motor, the (R)..... 26
Conneaut, Ohio, the electric ore unloaders at*..... 721
Considerations relating to the design of the armature slot insulation in high-voltage, alternating-current generators (R)..... 858
Control for prime movers driving alternators in parallel (P)*..... 337
Control of electric locomotives, by William Cooper..... 568
Convenience of the small motor, the (E) 525
CONVENTIONS.
American Electrochemical Society ..297, 402, 919, 731
American Institute of Electrical Engineers 804, 882, 940, 971, 1002
American Railway Master Mechanics 926, 973, 1020
American Society of Mechanical Engineers 838, 972
Bell Telephone Managers..... 423
Electrical Contractors' Association of New York State..... 248
Electrical Contractors' Association of Ohio, the..... 145
Independent Telephone Association of Wisconsin.....118, 199
Independent Telephone Association of Nebraska, the..... 161
International Association of Municipal Electricians.....326, 685, 970
International Railway Congress... 663, 682, 718, 761, 818
Iowa Telephone Association....469, 509
Iowa Electrical Association....682, 739
Kansas Independent Telephone Association 335
Master Car Builders' Association.. 926, 973
CONVENTIONS—*Continued.*
National Electric Light Association 453, 534, 663, 766, 804, 838, 883, 922, 962
National Electrical Trades' Association 974
National-Interstate Independent Telephone Association.....974, 1003
National Machine Tool Builders.. 655
New York State Independent Telephone Association..... 852
Northwestern Electrical Association 25, 150
Ohio Electric Light Association.. 4
Ohio Independent Telephone Association 508, 562
Street Railway Association of the State of New York..... 945
South Dakota Telephone Association 161
Texas Independent Telephone Association 146
Copper, a big chunk of..... 804
Copper in Honduras..... 838
Copper production, world's..... 851
Corrosion of condenser tubes (R)..... 164
Cost of lighting, the..... 306
Cost of electric lighting in various cities 987
Cotton machinery, the driving of, by electricity (R)..... 122
Counterweights on large engines, by D. S. Jacobus* 1011
Curious comments (E)..... 715
Current, a pertinacious (E)..... 607

D

Dallas, Tex..... 534
Death of Mr. Edward H. Mullin..... 161
De Cew Falls, Ontario, power station, the 169
Denver Gas and Electric Company, the electrical properties of the, by C. W. Humphrey*..... 874
Designing of fixtures for modern lighting, the, by A. H. Patterson..... 59
Detector for Hertzian waves, a (R)... 338
Determination of the commercial efficiency of continuous-current machines 326
Development in electric traction, by W. B. Potter..... 142
Diamond dies (E)..... 559
Diesel engine at Rothesay, England (R) 26
Diesel engines in electricity generating stations, the (R) 299
Dinner of the Indianapolis Telephone Company 766
Dinner to the Swedish delegates to the International Railway Congress... 783
Direct-current dynamos, the separation and analysis of losses in (R)..... 165
Direct-reading resistance thermometers 612
Direct Wheatstone working between England and Teheran (R)..... 206
Discharge of electrically charged electrolytic surfaces by light (R)..... 946
Disruptive distance in air (E)..... 225
Distribution and dollars, by C. H. Williams 232
District heating, report of committee on, 1018
Dominion of Canada, the wire situation in..... 72
Driving two alternators in parallel, by R. E. Spencer Geare..... 621
Doubling the capacity of a street (E). 753
Dynamo-electric machine (P)*..... 588

50512

E

Economy in recharging..... 586
Eddy-current brake for testing motors, the, by D. K. Morris and G. A. Lister* 892
Eddy-current losses in massive pole-shoes (R)..... 462
Effect of load-factor on cost of power, by E. M. Archibald*..... 358
Efficiency of electric hauling gears, the (R)..... 338
Efficiency of steam engines, the..... 8
Efficiency of steam plant, some notes on the (R)..... 822
Efficiency of the incandescent lamp, the (E)..... 560
Efficiency of the incandescent lamp, the, by William Kent..... 648
Efficiency of the incandescent lamp, the, by George H. Gibson..... 683
Electrical absorption brakes (E)..... 723
Electrical apparatus for measuring speed 656
Electrical driving of shops, the (E)... 835
Electrical distribution in Paris in the future 501
Electrical equipment of a London hospital, the (R)..... 252
Electrical equipment of the New York *Times* building, the..... 147
Electrical equipment of Messrs. Harland & Wolff's shipbuilding works, the (R) 628
Electrical equipment of suburban lines of the Great Western Railway, England 340
Electrical exhibition..... 720
Electrical industry and its relation to the mineral industry (E)..... 140
Electrical manufacture of light and the lamp of the future (R)..... 666
Electrical manufactures in England... 340
Electrical measuring instruments (E). 716
Electrical men enjoy planked shad.... 854
Electrical methods of measuring temperature (E)..... 357
Electrical mining machinery in South Africa 847
Electrical mining notes, by Sydney F. Walker.....684, 775
Electrical notes from Europe, by C. L. Durand.....114, 414, 776, 941
Electrical power in mines (E)..... 3
Electrical repairs at sea (R)..... 822
Electrical speed indicator, an..... 783
Electrical standards and units..... 809
Electrical system (P)*..... 382
Electrical theories, by Dr. John Trowbridge 55
Electrical transfusion, by James Edmondson, M. D..... 413
Electrical transmission in Europe (E) 3
Electrical transmission of power..... 49
Electrically propelled fire engines (R). 986
Electrically driven Semet-Solvay coke plant of the Wigan Coal and Iron Company, Limited, near Wigan, England (R)..... 805
Electric conductor support (P)*..... 590
Electric crane at St. Triphon Quarries, Switzerland, by C. L. Durand*.... 529
Electric elevator control (P)*..... 588
Electric elevators (E)..... 999
Electric generator (P)*..... 590
Electric hoisting at a French colliery.. 284
Electricity and bread..... 192
Electricity as a means to an end (E).. 313
Electricity for Rio..... 472
Electricity for city work (E)..... 2
Electricity from the cold combustion of hydrocarbons (R)..... 123
Electricity from water power *versus* gas (R)..... 666
Electricity in mines..... 7
Electricity in 1904, a review of the year 46
Electricity in the "City of the Holy Cross," Cal. (R)..... 859
Electricity in the anthracite coal mines, by Robert Thurston Kent*.....563, 613
Electricity on steam roads, by C. F. Street 723
Electric lighting during fogs (E)..... 44
Electric lighting in New England, by C. L. Edgar..... 49
Electric lighting of railway trains (R) 592
Electric lighting of trains in Belgium.. 253
Electric locomotive (P)*..... 120
Electric locomotive for the Valtellina line* 1008
Electric motor (P)*..... 121
Electric plant for the Nilgiri, India, cordite factory (R)..... 427
Electric plants for the supplying of electricity to London..... 704
Electric porch lights (E)..... 679
Electric power for spinning mills..... 706
Electric power in an office building (E) 2
Electric power in New Zealand..... 172
Electric radiography (R)..... 252
Electric railroads in Connecticut in 1904 4
Electric railway operation in a great city, by H. H. Vreeland..... 334
Electric railway problems (E)..... 679
Electric railway situation, the, by Dr. Louis Bell..... 51
Electric railways—the art and the men, by Frank J. Sprague..... 324
Electric recording instrument (P)*.... 665
Electric service during storms (E).... 271
Electric snap switch (P)..... 857
Electric state railway experiments in Sweden 149
Electric stove (P)*..... 209
Electric supply in the Gate City, by Alston D. Adams*..... 73
Electric traction on the North Eastern Railway* 754
Electric tramways and light railways in England..... 654
Electric tramways in Lima..... 1004
Electric trucks in Cologne, Germany... 337
Electric water power from the Great Lakes (E)..... 1
Electrification of an important English railway (E)..... 224
Electrification of the Metropolitan Railway, the..... 8
Electrification of the London, Brighton & South Coast Railway, England.. 251
Electrification of railroads (E)..... 183
Electrification of trunk lines, the, by W. Caryl Ely..... 48
Electrochemical and Electrometallurgical industries in 1904, progress in the, by J. B. C. Kershaw..... 52
Electrodes, improvement in (P)..... 208
Electrogasoline vehicle (P)*..... 623
Electrolysis of platinum (E)..... 607
Electrolytic corrosion in underground pipes, by Alec A. Beadle..... 19
Electrolytic detectors of electric waves. 667
Electrolytic preparation of tin plate, by F. Gelstharp..... 66
Electrolytic preparation and production of calcium, strontium and barium (R) 785
Electrolytic rectifier, the theory of the (R) 785
Electromagnetic metal washing machine (P)*..... 208
Electromagnetic wave receiver (P)*.. 336
Electromechanical compounding of generator sets (R)..... 78
Electrostatic voltmeter for high potentials, an (R)..... 667
Electrotherapeutic apparatus (P)*.... 821
Eliminating isolation and distance from farm life..... 200
Enclosed mercury reversing commutator, an (R)..... 462
Engineering and commerce..... 117
Engineering, lines of progress in (E).. 43
Engineering, telephone line, by C. J. H. Woodbury 100
Europe, electrical notes from, by C. L. Durand 114, 414, 776, 941
Evening courses in electric transportation 1003
Exhibition of cooking by electricity... 804
Extraction of nitrogen from the air... 200

F

Facilitating export and import business with Austria..... 547
Faraday society, the..70, 367, 579, 692, 943
Field for the illuminating engineer, a, by Louis B. Marks..... 620
Financial statement of the United States Telephone Company..... 466
Fire-alarm, automatic..... 103
First electric railway in Manila..... 627
First transmission of power in Europe at 40,000 volts, the, by Enrico Bignami* 11
First woman telephone operator, the* 903
Fish shoals located by electric apparatus 19
Five-thousand-horse-power turbo-alternator at Frankfort, Germany (R) 123
Fixation of nitrogen, the (E)..... 141
Fogs, electric lighting during (E)..... 44
Foreign scientists to lecture at Columbia University..... 583
Form of voltage curves before and after transformation, the (R).... 698
Formosa, electric plant in..... 412
Forty thousand volts, the first transmission in Europe, at, by Enrico Bignami* 11
Foucault currents in the armatures of continuous current machines (R). 426
Frame for dynamo electric machine (P)* 464
Franklin Institute election..... 7
Franklin Institute, the.....512, 663
Fuel economy in steam power plants, by William H. Booth and J. B. C. Kershaw 327, 370, 410
Fundamental features of electric elevators, by E. R. Carichoff*..... 1006
Furnace, a simple experimental (E)... 681
Furnace, electric (E)..... 524
Future of railways, the (R)..... 339
Future of the electric automobile, the (R) 629

G

Gas and electric plant at Muskogee, I. T., the* ... 238
Gas engine ignition dynamo (P)* ... 22
Gas engines, some continental central stations operating with, by Franz Koester* ... 60
Gaslights in bedrooms (E) ... 255
Gas turbine, the ... 852
Gas turbine, the question of the (R) ... 947
General instructions for accepting electrical machinery (R) ... 463
German electrical developments ... 452
German electrical firms combine ... 648
German electrical industries ... 211
German electrical installations—mine drainage and ventilation (R) ... 165
Germany, electrical combinations in ... 585

INDUSTRIAL SECTION.

Air compressors at the St. Louis World's Fair. L.-D.-G. Co ... 346
Allis-Chalmers literature, some notable. A.-C. Co ... 125
Alternating-current apparatus, new. A. E. & C. Co.* ... 599
Alternating-current and direct-current solenoids. A. E. & C. Co.* ... 864
Alternating-current ceiling fans. H. F. & M. Co.* ... 669
Apparatus for automatically transcribing Morse signals.* ... 668
Apparatus for the new power-house of the Ohio Street Railway Company ... 475
"Arc-burst," a new form of. B. E. Mfg. Co.* ... 81
Arc lamp, new form of. L. B.* ... 432
Armature disc and segment notching-press. E. W B. Co.* ... 344
Adams secondary generator, the. W. S. Co.* ... 258
Allis-Chalmers sales-office organization, change in ... 263
Alternating-current solenoid brake applied to induction motors. G. E. Co.* ... 213
Arc-lamp resistance, high-tension transformers and autostarters. W. E. & Mfg. Co.* ... 826
Asbestos building lumber. W. & McD.* ... 740
Automatic electric controller, an. A. E. Co.* ... 862
Automatic numbering machine, a new. B. M. Co.* ... 988
Automatic release starters and motors for heavy duty. C.-H. Co.* ... 864
Automatic reversible starters for alternating-current motors. A. S. Co.* ... 596
Automatic speed adjuster, a new. C.-H. Co.* ... 744
Automatic starter for induction motors, an. A. E. & C. Co.* ... 791
Automatic system of refrigeration, an. F. A. R. Co ... 385
Battery fan motor outfit, a new. E. M. & E. Co.* ... 704
Battery switch, a new. A. K. Mfg. W.* ... 172
Belt-driven alternator, a new form of. G. E. Co.* ... 170
Belt-type, alternating-current generators. C.-W. Co.* ... 477
Best Manufacturing Company's valves* ... 383
Bids wanted—water power electric plant ... 861

INDUSTRIAL SECTION—*Continued.*

Bijur high-duty storage battery, the. G. S. B. Co.* ... 705
Blake electric railway signal. B. S. & Mfg. Co.* ... 33
Blake insulated staples, the. B. S. & Mfg. Co.* ... 88
Burke Electric Company—fire not serious ... 516
Business suggestion, a good ... 29
Cable clamp, a new. D. E. B. Co.* 432
Cable dog, a new type of. S. E. B. Co.* ... 991
Cable-laying engine. F. M. Co.* ... 171
Carey-Foster bridge and commutator, the. Q. & Co.* ... 551
Cartridge fuse cutouts. H. T. P. Co.* ... 263
Case controller, the. C. Mfg. Co.* 550
Ceiling board, new form of. G. E. Co.* ... 706
Ceiling switch, a new form of. P. S.* ... 258
Central Electric Company's plant burned ... 306
Changes in the Arnold Electric Power Station Company ... 513
Closing bulkhead doors by electricity. L. A. S. Co.* ... 386
